## Profile

I am an aspiring data scientist, motivated and dedicated to developing my skills in this exciting field. I have already gained experience through academic and personal projects, and I am now ready to take on new challenges and participate in real-world projects.

## Education

### In progress: Master's in Data Science

2023-2025

Faculty of Sciences, Senglalia, Marrakech

### Licence en Mathématiques et Informatique

2020 -2023

Faculty of Sciences, Senglalia, Marrakech

## Projets

### NLP: Tweet Classification

In progress

Faculty of Sciences, Senglalia, Marrakech

The project involves using a dataset of tweets in the Moroccan context, then training a model to classify these tweets by topic/theme. Finally, deploying the trained model using the Flask .

### BI: Creation of a dynamic dashboard

2023-2024

Faculty of Sciences, Senglalia, Marrakech

Project to create a dashboard explaining the conflict between Palestine and Israel.

### ML: Detection of influential nodes

2022-2023

Faculty of Sciences, Senglalia, Marrakech

Supervised Learning Applied to Social Networks, where we applied supervised learning to detect whether a profile is influential or not.

## CERTIFICATIONS

### Data Science and AI.

By Mo.Medwani, InnovatiCS

### Supervised Machine Learning: Regression and Classification

By Andrew Ng, Stanford, Coursera

### Advanced Learning Algorithms

By Andrew Ng, Stanford, Coursera

## SKILLS

NLP | Machine Learning | Business Intelligence | Data Mining | Data Visualization | Power BI | Python | TensorFlow | Scikit-Learn | Pandas | Matplotlib | Seaborn | Numpy | SQL

## Langue

French (B2) | English (B1) | Arabic (Bilingual) | Berber (Native)
